PROFESSIONAL SUMMARY

Software developer specializing in Flutter mobile applications and full-stack web development. Experience delivering production ERP modules, cross-platform delivery apps with GPS and API integration, and a React/Firebase e-learning platform. Strong foundation in clean architecture, testing practices, and building reliable, user-focused software.

TECHNICAL SKILLS

Mobile	Flutter, Dart, React Native, Android Studio, BLoC, Provider, Redux
Frontend	React.js, JavaScript, HTML, CSS, Bootstrap, jQuery, WordPress, REST APIs
Backend	Node.js, Express.js, PHP, Firebase, MySQL, MongoDB
Practices	Test-Driven Development (TDD), Integration Testing, Code Review, Debugging, Scalable Architecture

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Sentient360

Sep 2024 - Present

- Engineered and maintained core modules for a large-scale ERP system spanning sales, project management, and HR workflows.
- Improved software reliability and reduced post-release defects through rigorous automated and manual testing.
- Delivered client-centric features aligned with business requirements and modern design standards.

Flutter Full Stack Mobile Developer Sentient360

Sep 2024 - Present

- Designed, developed, and deployed two end-to-end Flutter apps (iOS and Android) for a delivery ecosystem.
- Built a Vendor App for real-time order submission and a Driver App with GPS navigation and live tracking.
- Integrated both apps with backend systems through secure APIs to support data consistency, automated order assignment, and intuitive UI/UX.

Full Stack Web Developer Ello Cafe

Oct 2021 - Present

- Developed a full-stack e-learning platform connecting students with instructors, including booking workflows and dynamic instructor filtering.
- Built a responsive React.js front end and used Google Firebase for secure authentication and real-time database management.
- Deployed and optimized the application on Vercel for production use.

Flutter Full Stack Mobile Developer AXELERION Consulting

May 2023 - Aug 2023

- Collaborated with the development team to implement new features using Flutter and Dart.
- Applied Test-Driven Development (TDD) and integration testing to maintain high code quality.
- Contributed to peer code reviews and debugging to identify and resolve defects early in the development lifecycle.
