SUMMARY

I am an experienced software developer with a strong background in building high-quality web and mobile applications. I excel in designing clean, scalable architectures, creating intuitive user experiences, and optimizing performance across platforms. With a problem-solving mindset and a focus on reliability and maintainability, I consistently deliver solutions that meet both technical requirements and business objectives.

WORK EXPERIENCE

Sentient360 Sept 2024 - Present
Full Stack Web Developer

Engineered and maintained core modules for a large-scale ERP system, streamlining sales, project management, and HR workflows. Ensured high software reliability and significantly reduced post-release defects by implementing rigorous automated and manual testing strategies. Consistently delivered client-centric solutions that aligned with both business expectations and modern design standards.

Sentient360 Sept 2024 - Present
Flutter Full Stack Mobile Developer

Designed, developed, and deployed two end-to-end cross-platform Flutter applications (iOS and Android) to automate a delivery ecosystem. Built a Vendor App for real-time order submission and a Driver App featuring GPS navigation and live tracking. Seamlessly integrated both apps with backend systems via secure APIs to ensure data consistency, automate order assignments, and deliver an intuitive UI/UX.

Ello Café Oct 2021 - Present
Full Stack Web Developer

Developed a modern, full-stack e-learning platform to connect students with expert teachers. Architected a highly responsive front-end using React.js, featuring dynamic instructor filtering and seamless booking workflows. Leveraged Google Firebase as a serverless backend to handle secure user authentication and real-time database management, successfully deploying the optimized application via Vercel.

AXELERION Consulting May 2023 - Aug 2023
Flutter Full Stack Mobile Developer

Collaborated with the development team to build and implement new features using Dart and the Flutter framework. Championed high code quality by applying Test-Driven Development (TDD) and integration testing methodologies. Actively contributed to peer code reviews and debugging processes to resolve defects early in the software lifecycle.

EDUCATION

Lebanese International University

October 2021 - June 2024

Information Technology

3.66 GPA

SKILLS

Frontend Web Languages and Frameworks:	HTML CSS JAVASCRIPT BOOTSTRAP JQUERY RESTAPI REACTJS WORDPRESS
Backend Languages and Frameworks:	PYTHON DJANGO PHP FIREBASE MYSQL NODEJS EXPRESSJS MONGODB
App Development	FLUTTER REACTNATIVE ANDROID STUDIO
State Management (Mobile Apps)	BLoC, Provider (Flutter), Redux (React Native / React JS)

LANGUAGES

- Arabic: Native
- English: Intermediate
- French: Intermediate
