PROFESSIONAL SUMMARY

Software developer specializing in Flutter mobile applications and full-stack web development, working in-house and as an independent freelancer. Experience delivering production ERP modules, cross-platform delivery apps with GPS and API integration, a React/Firebase e-learning platform, and freelance client products spanning marketplaces, news, and business websites. Strong foundation in clean architecture, testing practices, and building reliable, user-focused software.

TECHNICAL SKILLS

Mobile	Flutter, Dart, React Native, Android Studio, BLoC, Provider, Riverpod, Redux
Frontend	React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, jQuery, WordPress, REST APIs
Backend	Node.js, Express.js, PHP, Firebase (Firestore, Auth, Cloud Messaging), MySQL, MongoDB
Practices	Test-Driven Development (TDD), Integration Testing, Code Review, Debugging, Scalable Architecture

PROFESSIONAL EXPERIENCE

Full Stack Web Developer — Sep 2024 - Present

Sentient360

- Engineered and maintained core modules for a large-scale ERP system spanning sales, project management, and HR workflows.
- Improved software reliability and reduced post-release defects through rigorous automated and manual testing.
- Delivered client-centric features aligned with business requirements and modern design standards.

Flutter Full Stack Mobile Developer — Sep 2024 - Present

Sentient360

- Designed, developed, and deployed two end-to-end Flutter apps (iOS and Android) for a delivery ecosystem.
- Built a Vendor App for real-time order submission and a Driver App with GPS navigation and live tracking.
- Integrated both apps with backend systems through secure APIs to support data consistency, automated order assignment, and intuitive UI/UX.

Full Stack Web Developer — Oct 2021 - Present

Ello Cafe

- Developed a full-stack e-learning platform connecting students with instructors, including booking workflows and dynamic instructor filtering.
- Built a responsive React.js front end and used Google Firebase for secure authentication and real-time database management.
- Deployed and optimized the application on Vercel for production use.

Flutter Full Stack Mobile Developer — May 2023 - Aug 2023

AXELERION Consulting

- Collaborated with the development team to implement new features using Flutter and Dart.
- Applied Test-Driven Development (TDD) and integration testing to maintain high code quality.
- Contributed to peer code reviews and debugging to identify and resolve defects early in the development lifecycle.

FREELANCE EXPERIENCE

Freelance Software Developer — 2024 - Present

Self-employed | Remote

- Deliver web and mobile products end to end for independent clients, from requirements and UI design through launch and support.

Martix | Multi-Vendor Marketplace App — Flutter, Firebase, Dio

- Built the Flutter customer app for a live marketplace: stores, flash deals, checkout, order tracking, and real-time seller chat.
- Implemented OTP/Google/Facebook sign-in, FCM push with deep links, RTL localization, and offline caching on a layered architecture.

ArabFiles News | News Mobile App — Flutter, Riverpod, Dio

- Shipped a production RTL-first news app for an Arab media brand with live API feeds, in-article video, and breaking-news push alerts.

Raffoul Motors | Car Dealership Platform — React, TypeScript, Firebase

- Built a bilingual (Arabic/English) dealership platform with inventory browsing, a workshop section, and a no-code admin panel.

Alter | PR & Marketing Agency Website — React.js, Vercel

- Developed a cinematic, fully responsive agency website with live campaign stats, an artist roster marquee, and an influencer showcase.

EDUCATION

Lebanese International University — Oct 2021 - Jun 2024

Information Technology | GPA 3.66
